A big fan of Brazil ...

As the text already says I'm from Brazil ^ ^

I believe that it is not very feasible for me to buy some material from the band here in my country will pay dearly for the fees and papapa.

Where do I get ...

You are organizing a forum that could put autographed photos of the band so we can print and thus have a post in the band or something.

If possible thank you very much and I apologize for that English is not mine but the google translator. A big hug to everyone in the band and I hope that you know you have many fans here in Brazil.
